DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 3-4, 13, 15, 18, 20, 22, 29-31, 34, 40-48 are rejected under 35 U.S.C. 102(e) as being anticipated by Patsiokas (US 6,493,546).

Regarding claims 1, 13, 15, 18, 20, 22, 29-31, 34, 40-48, Patsiokas discloses an audio system (system 10; Figure 1) that reproduces content information (audio signals from an auxiliary source 52) in a vehicle (vehicle 23; Figure 2), comprising:

a portable audio apparatus (CD player 52 with interface device 16; col. 3, lines 48-53);

and

an audio apparatus mounted in said vehicle (radio receiver 24 in vehicle 23; col. 2, line 61);

wherein said portable audio apparatus comprises: a storage medium (CD in CD player 52) and a transmission module (interface device 16 transmits audio signals from CD player 52 to the vehicle radio receiver 24 via a wireless link 15; col. 2, lines 59-63; Figure 1);

wherein said audio apparatus comprises: a reception module (antenna 22 and antenna receptor; Figure 1) and a control unit (radio receiver 24 inherently includes a control unit; col. 3, line 54 – col. 4, line 3).

Art Unit: 2643

Regarding claim 3, portable CD player 52 inherently includes control buttons such as play, stop, etc.

Regarding claim 4, vehicle receiver 24 includes a display 46 (Figure 1; col. 4, lines 19-21).

Allowable Subject Matter

3. Claims 2, 5-12, 14, 16-17, 19, 21, 23-28, 32-33, 35-39 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

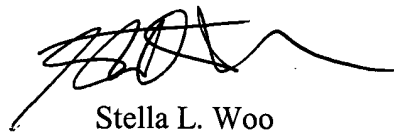

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kinzalow et al., Gioscia et al., Lee et al., McGreevy show other systems which wirelessly transmit audio source signals to a vehicle stereo system.
